

Dua Cecilia -- a BMB con. production / project

Dua Cecilia was created after the untimely passing of two women closely associated with BMB con: Ciel Linders (2024) and Cilia Erens (2023). The Italianate title for the project refers to both of them. You might expect an opera, but there won't be any singing!

The title is not the only thing that immediately recalls them. That we have existed and been active all this time is largely thanks to Ciel. Apart from being Roelf's partner, she was also a very enthusiastic follower of BMB con. In terms of inspiration and all manner of support she was very important to us.

Cilia was also very close - she too was an enthusiastic follower. Justin had worked with her in projects, but unfortunately, BMB con. never got to perform with her. Wanted to, but never got around to it - until now! From both we had unconditional support, leading by example, it was impressive. And then also the same name: great fun for them! Hence...

Although Cilia Erens website is offline, you can still find a lot about her on the web:

<https://www.startpage.com/do/metasearch.pl?query=cilia%20erens>

Ciel Linders is not on the web, but there was writing about her last year, among other things:
